

Drish Malhotra

Senior Frontend Engineer | React.js · TypeScript · Next.js · Frontend Architecture

drishmalhotra1997@gmail.com · +91-9464669661 · Noida, India · [linkedin.com/in/drish-malhotra](https://www.linkedin.com/in/drish-malhotra) · drishmalhotra.vercel.app

PROFESSIONAL SUMMARY

Senior Frontend Engineer with **5+ years of experience** building scalable SaaS products, enterprise dashboards, and real-time energy-trading interfaces. Expertise in **React.js, TypeScript, Next.js, component-driven architecture, design systems, state management, performance optimization, Caching Strategies, SEO Best Practices, and WCAG accessibility**. Delivered **20% rendering and page-load improvements**, reduced legacy UI maintenance by **25%**, and progressed from intern to Senior Software Developer while supporting Agile delivery and Azure CI/CD releases.

TECHNICAL SKILLS

Frontend & Architecture: React.js, React Hooks, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, Context API, TanStack Query, React Router, Tailwind CSS, Styled Components, Component Libraries, Design Systems, Theming, Frontend Design Patterns, Responsive Design Patterns, Dashboard Layouts, Frontend Best Practices

UI/UX & Performance: UI/UX Collaboration, UI/UX Fundamentals, Figma Basics, Design Mockups, Design-to-Code, Pixel-Perfect UI, Web Design, Website Performance, Rendering Optimization, Lazy Loading, Code Splitting, Caching Strategies, SEO Best Practices, WCAG Accessibility, Cross-Browser Compatibility, Mobile Compatibility, Interactive Charts, Data Visualization (Recharts/Chart.js)

Backend & Data: RESTful APIs, GraphQL, JSON, Axios, Supabase, Firebase, PostgreSQL, MySQL, Microsoft SQL, .NET / ASP.NET Basics, C# Basics

Authentication & Security: OAuth, SSO, JWT, RBAC, Authentication, Authorization, Web Security

Testing & Quality: Jest, React Testing Library, Cypress, Playwright, Unit Testing, Component Testing, Integration Testing, End-to-End Testing, Regression Testing, Manual Testing, Test Automation, TDD, ATDD

DevOps & Delivery: Vite, Webpack, npm, Git, Version Control, GitHub Actions, Azure DevOps, Azure Pipelines, CI/CD, Release Automation

Product & Collaboration: Agile/Scrum, SDLC, Business Requirements, Business Objectives, Product Goals, Cross-functional Collaboration, Communication Skills, Teamwork, Attention to Detail, Code Reviews, Mentoring, Debugging, Troubleshooting

AI-Assisted Development: GitHub Copilot, Cursor, Claude Code, ChatGPT, Google Gemini

PROFESSIONAL EXPERIENCE

TechUApps Technologies | *Software Developer* | **Apr 2024 – Present** | Noida, India

- **Architected reusable React.js, TypeScript, and Next.js modules** for data-heavy enterprise dashboards, reducing rendering time by **20%** and improving responsiveness for high-frequency workflows.
- **Built real-time visualization panels, interactive charts, and data tables** supporting sub-second operational updates and faster decision-making.
- **Led frontend code reviews and mentored junior engineers** on component-driven patterns, design-system consistency, WCAG accessibility, testing quality, cross-browser compatibility, and AI-assisted development.

Open Access Technology India Pvt Ltd | *Role Progression* | **Jan 2021 – Apr 2024** | Mohali, India

Role Progression: Software Developer Intern → Associate Software Developer → Software Developer → Senior Software Developer

- Contributed to SaaS products (*WebSmartTrader, WebTrader, Deal Entry*) for North American energy, utility, and real-time market analytics workflows.
- **Spearheaded frontend development** using React.js, TypeScript, JavaScript, REST APIs, reusable UI component libraries, and data-driven patterns.
- **Migrated legacy Backbone.js and Ext JS modules to modern React components and Hooks**, reducing maintenance effort by **25%** and improving maintainability.
- **Improved page-load performance by 20%** through lazy loading, code splitting, caching, rendering optimization, and targeted refactoring.
- Developed compliance dashboards, interactive charts, and deal-entry workflows while supporting WCAG accessibility, unit/component/regression testing, manual testing, and TDD.
- Collaborated cross-functionally with UX, QA, DevOps, product stakeholders, and engineering teams, helping improve Azure CI/CD release cadence from **bi-monthly to weekly** while aligning delivery with business requirements and product goals.

SELECTED PROJECTS

Hotel Booking Website: React.js, responsive UI, state management, reusable components, API-driven reservations | [GitHub](#) | [Live Demo](#)

Hotel Management Dashboard: React dashboard for bookings, room inventory, pricing, modular UI, and real-time data | [GitHub](#) | [Live Demo](#)

Restaurant Food Order: React app with menu browsing, cart management, checkout, dynamic UI, and API integration | [GitHub](#) | [Live Demo](#)

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA), Chitkara University, Patiala | CGPA: 9.39 | **2019 – 2021**

Bachelor of Computer Applications (BCA), Chitkara University, Patiala | CGPA: 7.95 | **2016 – 2019**

Certifications: Acceptance Test-Driven Development for the Front End; Introduction to Playwright; Qualcomm AI Upskilling (2026)
